- HTML (Intermediate)
- CSS (Intermediate)
- JavaScript (Basic)

Databases

- SQL (Intermediate)
- MySQL (Basic)

Tools & Technologies

- Git & GitHub (Intermediate)
- VS Code (Intermediate)
- Jupyter Notebook (Intermediate)

Other Skills

- Problem Solving
- Team Collaboration
- Time Management

Languages

- English (Professional Working)
- Tamil (Native)

Professional Summary

Motivated and enthusiastic 3rd-year B.Tech AI & Data Science student with a strong interest in technology, problem solving and continuous learning. Passinuous about building real-world projects, developing skills in programming, data management and AI/ML. Eager to gain industry experience through internships and contribute to innovative projects in a dynamic team environment.

Education

Ponnaiyah Ramajayam Institute of Science and Technology

B.Tech – Artificial Intelligence and Data Science

2024 – 2028 (Expected)

Tamil Nadu, India

Academic Projects

Human Emotion Detection using CNN

- Built a CNN model to classify human emotions from facial images.
- Used Python, TensorFlow/Keras and OpenCV for implementation.
- Achieved good accuracy in emotion classification.

E-Commerce Website (Full Stack)

- Developed a responsive e-commerce website with product listing, cart and user authentication.
- Used HTML, CSS, JavaScript for frontend and PHP/MySQL for backend.

Movie Recommendation System

- Implemented a content-based recommendation system using ML concepts.
- Used Python, Pandas, NumPy and cosine similarity for recommendations.

Certifications

- Python for Beginners – Coursera
- Web Development – Udemy
- SQL Basics – Great Learning

Achievements

- Completed various online courses to enhance technical skills.
- Active participant in college events and technical workshops.
- Consistently maintaining good academic performance.
